

STARTING THE CLIMBING
SEASON SAFELY
WITH THE NEW
LockD Clips

Blittera / ÖRP

Get the most advanced smart belay system on the market. From spring 2021.

Certified according to
**EN 17109:
2020 / Type D**

Type D corresponds to
the same classification
as in EN 15567-2

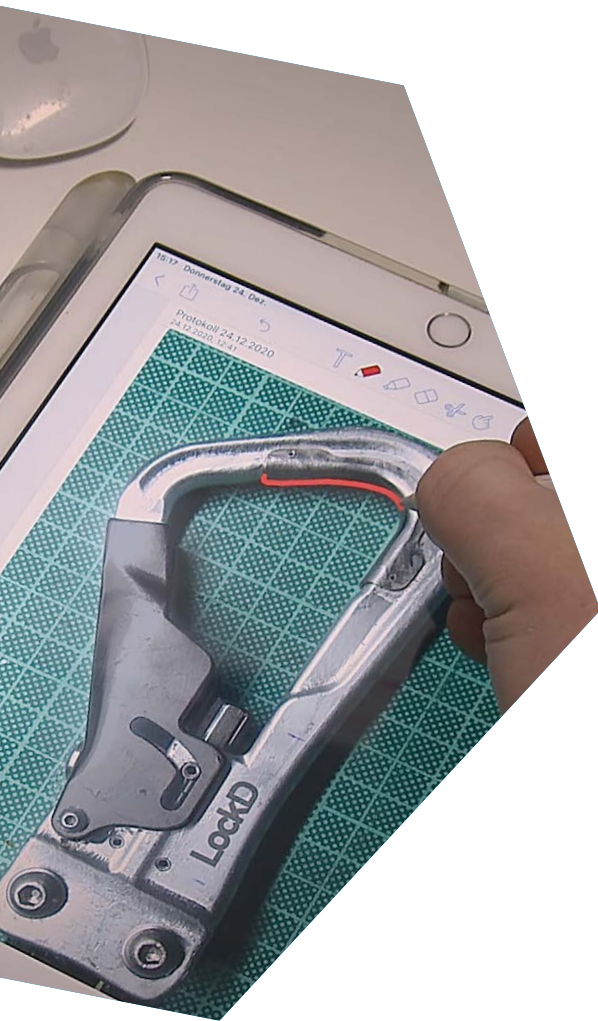

LockD Clips

Manufactured by **ROPES PARK
EQUIPMENT**

The new LockD Clips are available in Europe exclusively through the KristallTurm® Safety & Service GmbH.

The new LockD Clips system integrates seamlessly into your existing Bornack SSB systems and can be used with your Tweezles. Clips can be upgraded all at once or over time as your SSB clips are retired.

YOUR BENEFITS

No retooling required. Seamless integration into already existing Bornack SSB systems and compatible with existing Tweezles

Significantly reduced number of components, resulting in fewer wearing parts and **greater longevity**

Take over the maintenance and inspection yourself. All adjustments and repairs are extremely simple and can be carried out by you or your guides

Increased throughput due to easy handling

BENEFITS FOR CLIMBERS

Lightweight

Weighs only 950 g

Easier to operate

The slenderized carabiner fits easily into small and large hands alike
