

THE CONTINUOUS INTERACTIVE BELAY SYSTEM!

CLiC-iT ADVENTURE enables the user to actively secure himself, thus keeping the adventurous spirit of climbing alive, while preventing the risk of completely unhooking.

Because of its simple and intelligent mechanisms the CLiC-iT received the «Product Winner» Award in the «Innovation» category at IAPA AWARD 2016.

BENEFITS FOR OPERATORS

High grade materials. Paired with a simple mechanism. Second generation of CLiC-iT, in operation since 2017.

Few moving parts, exceptionally durable & easy to repair.

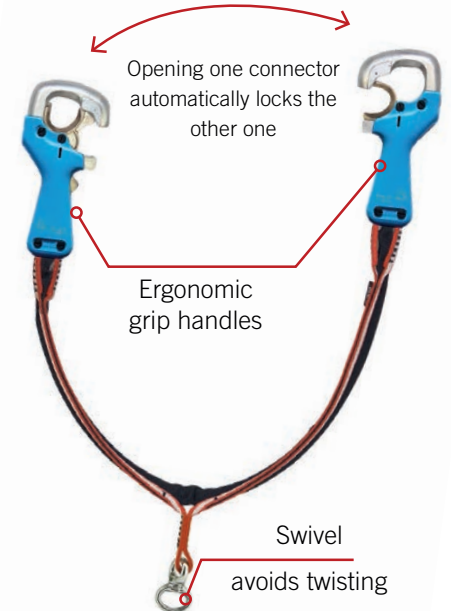

Easy maintenance and inspection

Increased throughput due to easy handling

D-safety level

BENEFITS FOR CLIMBERS

Easy to use

- usable with one hand, from the age of 4
- one single manipulation to unlock one of the two carabiners

C-ZAM L+

**Ensures that participant
only connects on the safety line**
